

Postage Machines

The High Performance Modular Solution for Busy Mailrooms

J-40

Join us on

NEOPOST

Send.Receive.Connect.

Compact, Cost Effective and Ready for the Future

Conveniently compact and easy to use, the IJ-40 boasts many of the features you'll find on larger machines. An automatic label dispenser is included as standard and Neopost AutoFeed can be added as your mailing needs grow.

No more fuzzy franking marks. The IJ-40's advanced inkjet technology produces a crisp, clear frank and a clean, positive message about your company. Your envelopes can be used as selling tools, as the IJ-40 stores a selection of customised marketing slogans. You can get it to print new text messages any time you like.

Modular Technology that Grows with your business

The Neopost IJ-40 can connect directly to a PC, exporting accounting data and reports for advanced cost tracking and analysis using Neopost's postage accounting and management software remotely and then fixing it accordingly.

A Mini Mailroom in your Office

Linked to a folder inserter, the IJ-40 gives you all the advantages of mini-mailroom capabilities and continuous, ready-to-mail processing. It will deal with your mail in a tenth of the time it would take a staff member to handle it, and can be used for mailshots and other marketing activities.

Easy-to-Use Mailing Solution for Growing Business Needs

The Simple Solution for Awkward Shaped Parcels

Additional scales can be interfaced with the IJ-40 for large, irregular shaped packets and parcels of more than 2 kg - and you don't even need stamps! A built-in label dispenser enables the IJ-40 to print onto a self-adhesive strip, making it easy to apply to larger items.

Automatic label dispenser stores and prints up to 50 labels, for swift and easy parcel post.

Easy to use feeder makes manual franking a breeze.

No More "Guess the Weight"

People often guess the weight of unusual packages - and waste money on over-stamping. The IJ-40's integrated, electronic weigh platform allows you to check the weight of envelopes and packages and then automatically applies the correct postage. You can even weigh a selection of items using differential weighing - just place the items on the weigh platform and it will calculate the weight of each individual item as you send it for franking.

Easy to use, one-touch direct access keys.

Recharging Postal Costs Made Easy

The IJ-40 allows you to easily recharge your postal costs, either to other departments or to customers, with mail accounting capabilities for up to 35 accounts. Accounting records can be printed onto franking labels or through an external printer.

Unparalleled Ease of Use

The IJ-40's easy-to-read display and one-touch controls make operating easy, while long-lasting ink cartridges are easy to replace. Logos and slogans can be uploaded from digital memory cards, which are also used to update postal rates when they change.

Professional Image

The IJ-40 is 100% inkjet and 100% digital, which gives you superbly crisp, clean impressions. Up to ten customised slogans can be loaded from memory cards and you can add your company name, greetings, marketing slogans - even logos and photographs.
