

IDEAL AP35

35 m²

Compact air purifier for clean indoor air – for room sizes of 25 to 45 m²*. With HEPA and odour filter.

- HEPA particulate filter
- Deodor filter against odours
- 4-step automatic mode
- Convenient timer function
- Intelligent sensors
- Low energy consumption
- Quiet operation
- Night mode
- Recommended for allergy sufferers

Technical details

Power supply	220-240V, 50/60 Hz
Fan speed levels	6
Power consumption	4 – 30 watts
Noise levels (dB)	26 – 55
Air throughput	up to 330 m ³ /h
Dimensions (H x W x D)	514 x 430 x 275 mm
Weight (kg)	7,4

* With a room height of 2.5 m.
Technical details approximate. Subject to change without prior notice. 12/2019

Product description

Air purifier with highly effective, multi-stage filter system. Due to its effective, functional design it captures even remoter pollutants or particles and distributes fresh air optimally through the room. The multi-layer filters filter out pollutants such as dust, particulate matter (PM10, PM2.5 and minor), pollen and allergens, pathogens such as bacteria and mould spores, cigarette smoke, exhaust fumes and odours from the indoor air. And all this running at very low energy and quiet as a whisper. The central control panel provides function modes such as on/off, automatic mode, level 1/2/3, turbo, eco and night mode at one's fingertip. The current air quality is automatically monitored and continuously displayed via switchable LED lighting elements above the air outlet. Practical filter change display. On an average, the filters have to be changed after 12 months, depending on the intensity of the usage.

IDEAL

pure air. pure life.
