Inline Sealer
Ultimate and reliable inline Desktop Pressure Sealer

Dependable mid-range print-to-mail Desktop Pressure Sealer

MF3000D

New Inline Solutions which is compatible for various kind of printers. The Mailfinisher 3000D (MF3000D) was designed for low volume operators needing high quality sealing while operating in-line with laser printers. MF3000D can be connected with various printers as such as OKI(Color), HP & Kyocera printers. The MF3000D is based on OM3D technology which means it benefits from the same high quality sealing and low noise level.

- **Perfect Sealing Quality & Extremely Low Noise Level. Perfect for any office environment**
  Mailfinisher 3000D is based on the officemate 3D tried and tested technology. It benefits from the same high sealing quality and low noise level.

- **Printer Compatibility**
  MF3000D is compatible for various kind of printers.

- **Double In-feed Detection**
  The officemate 3D has double in-feed detection fitted as standard. In the unlikely event of a double feed, the machine detects this and automatically stops the machine to prevent a paper jam.

- **Total/Batch Counter**
  You can check the total counter and adjust the batch counter within the display menu.

- **Information Display Panel**
  User friendly Menu giving you all the information you require.

Specifications

Speed	Up to 3,180 forms per hour(from 30 to 53ppm printer)
Input Tray	Up to 500 forms (Dependant on Printer tray)

Batch Counter	Yes
Double In-feed Detection	Yes
Total Counter	Yes
Manual Feed	Yes
Form Sizes	Depth – up to 14" Width – up to 235mm
Other Functions	information display
Noise Level	Less than 45db
Weight	22kg (Excluding Packaging)
Dimensions	320 x 390 x 280mm (WxLxH) (excluding printer)

Mailfinisher 4000/4350

The Mailfinisher4000/4350 offers the highly intelligent print-to-mail Pressure Sealer. It eliminates the added task of unloading forms from the printer and loading them in to the Pressure Sealer. It provides the Printer Communication kit (**Mailfinisher4350 only**).

01 **Automatic By-Pass Tray**
An integrated imaging system detects unrecognized papers and double feeds, diverting them into the by-pass tray.

02 **JetLink Printer Communication**
Communication between the printer and the Mailfinisher allows the printer to stop printing in the event of a jam with the Mailfinisher.

03 **Manual Feeder**
A simple manual feeder allows the processing of single or damaged forms.

04 **Revolutionary Hi-Tech Folding Unit and Sealing Rollers**
The folding unit slides out on glides to permit easy access to the pressure rollers for maintenance.

05 **Wide Range of Compatibility**
Compatible with most laser printers that have a rear exit option.
* Figs above may include the Propackage or additional accessories.

Specifications

Form Size	A4 / Letter / Legal size (option)
