Easy-to-Use Desktop Solution For Repetitive Mailings

Designed for mid-volume users, the Neopost AS-930 features fixed head technology capable of printing at nearly constant speed, regardless of content, onto a wide variety of documents such as envelopes, postcards, magazines or newsletters.

The AS-930 is perfectly suited for high speed printing or repetitive mail runs, as the secured paper paths and low jam rates provide greater output for better business continuity.

The AS-930 gives you the tools you need to take the blank space of a standard envelope and turn it into a medium for your message. You can maximize its potential, personalizing your message and targeting your audience effectively. You can change your message as often as you want to keep things fresh. And you can do it all inhouse, quickly, economically and efficiently.

Conveyor stacker	
Mail management software	

Time-Saving Flexibility

The AS-930 ensures maximum speed, accuracy and flexibility for all your printing jobs. Got an unexpected customer offer you need to integrate? No problem – the AS-930 gives you the flexibility to make last-minute changes with ease. Productivity is increased naturally with high printing speeds and high capacity outputs which reduce cycle time. And your customer information is protected with the complete inhouse control of the database.

Enhance Cost Control

Printing labels is an expensive and time-consuming business. The AS-930 cuts out the need for buying and stocking labels – and the manpower required to stick them on. Blank envelopes are transformed into powerful marketing messages that work hard for your business. With address management software, the duplicate and inaccurate addressing detection feature allows you to reduce return, duplication and unnecessary mail costs, enabling you to produce a higher volume of mail faster.

Mailroom Integration Made Easy

Neopost's addressing solutions come with a variety of finishing options to suit your needs. For optimum efficiency with larger mail runs, you can add an optional stacker or dryer, which integrate easily into your existing mailing process with a folder inserter, mailing machine and more.

Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful – offering you a competitive edge that will open up a wealth of business opportunities.
