Large envelope hopper	Yes	Yes
Full mixed and standard mail capability, no sorting required, unique slicing mechanism	Yes	Yes
1, 2 or 3 sided opening	Yes	Yes
No production of scrap paper, dust and sharp edges	Yes	Yes
Pre-programmed jobs	Yes	Yes
Document extraction		Yes
Stop counter	Yes	
Batch counter		
Operator adjustable speed	Yes	Yes
Sensor-driven envelope transport		Yes
Low noise level	Yes	Yes
Self explanatory display	Yes	Yes
Visual content check		Yes
Quick, safe and easy access to paper path by opening only one cover	Yes	Yes
Compact desktop system	Yes	Yes
Optional Features		
Neopost-Specific		
Electro-mechanical emptiness detection with four sensors and alarm-sound, including stop counter		Yes
Conveyor belt (max. 2)	Yes	Yes
Envelopes		
Height	85 - 175 mm	
Width	140 - 260 mm	
Thickness	up to 4 mm	
Weight	50 - 200 gsm	
Speed		
IM-30	up to 2,400/hour	
IM-35	up to 2,000/hour	
Conveyor Belt		
Length	1182 mm	
Dimensions		
Length	996 mm	
Width	564 mm	
Height	324 mm	
Weight	63 kg - 66 kg	

We've Got You Covered

Neopost customer support is there for you with our contact center and trained technicians who are ready to assist you. In fact, our dedication to providing you

with world-class customer satisfaction is so advanced that we offer automatic diagnostics with our product line. By uploading systems data, we will be alerted if you are having trouble. This remote access to your system allows us to analyze the situation remotely and then fix it accordingly.

Why Choose Neopost?

Neopost is a global leader in mailing solutions, shipping services and digital communications. We believe that people are the key to business success. That's why our products and services are tailored to help your organization improve the quality of its interactions and bring people closer together.

In this age of multichannel communications, we guide and empower you to interact in new and innovative ways. We advise you on how to create cost-cutting synergies. And we deliver global coverage with a strong local presence, offering you continual support by phone, onsite or online.

Today, Neopost is present in 31 countries and has a network of partners in more than 90 countries. We promote responsible business and sustainable development through our products and outreach programs. And our 6,200 employees worldwide are committed to making your interactions more responsive and more powerful - offering you a competitive edge that will open up a wealth of business opportunities.

IM-30
IM-35

A Fast and Secure Solution for Opening and Extracting Your Incoming Mail

Handling incoming mail is very important in any consuming. Invoices, payments and correspondence arrive daily and can easily stack up.

Automation of this process results in a substantial saving of time so that your mail can be distributed earlier. It also reduces the likelihood of errors and increases performance. With a Neopost letter-opening system by your side, you can make the process of mail opening simpler and much faster. The IM-35 even extracts the contents automatically.

Simple and Efficient Opening and Extraction

The IM-30 and IM-35 are built for efficiency and are reasonably priced for companies or corporate departments. Neopost offers you a solution with a small footprint that perfectly fits into an office environment. It opens hundreds of envelopes in just a few minutes, or even extracts the contents for more efficient routing.

Expand Your Possibilities

Extend the IM-30 and IM-35 with conveyor belts and professional mailroom furniture and create the ultimate mail processing solution for now and the future.

Accessibility

The unique design of the IM-30 and IM-35 provides quick, easy and safe access to the entire envelope path, just by opening one cover. Your mail is visible and accessible during the entire opening or extracting process.

Output Optimization

Optional conveyor belts enhance the productivity of the IM-30 and IM-35: more operators can sort and judge incoming mail.

Several Operating Modes

The IM-30 and IM-35 have several operating modes. The machine can be operated either at an adjustable continuous speed or at operator pace by using a unique sensor-driven envelope-transport methodology.

Easy-to-Operate

The clear and simple control panel is self-explanatory and applications can be changed at the touch of a button. The user can concentrate on the core task: sorting and distributing incoming mail as fast and accurately as possible.

Full automatic content extraction on IM-35

Protecting Your Documents

To ensure that none of your important or valuable documents are lost during extraction, envelopes are sliced on three sides and unfolded for visual control (standard on IM-35). As an option, an electro-mechanical document detection with four detectors can be delivered.

Slicing Mechanism

An exclusive and patented slicing mechanism slices the envelope open without cutting anything off. This protects against losing information from valuable documents and it eliminates the production of dust and scrap paper. It also guards against sharp paper edges.

Standard And Mixed Mail

Does your incoming mail vary in envelope size or is it homogeneous? The IM-30 and IM-35 can easily handle full mixed and standard mail, without changing any settings.

Simply load your envelopes and the machine automatically feeds and opens the envelopes on one, two or three sides, or can even extract the contents!
