Quadient Impress Cloud gives you the flexibility to send E-Statements via any combination of digital platforms.

Impress and Exceed Everyone's Expectations

Automate manual process

Centralize and manage document process

Flexible multi-channel communication delivery

Scale and grow your business

Focus on what matter most

Why choose Quadient Impress Cloud for managing statements?

Create personalized and high-value statements

Quadient Impress Cloud enables you to personalize content and advertising captions included on e-statement to optimize response rates and reduce time to send out. Create high-value E-Statements by leveraging on historical data to present year-over-year statistics and save cost.

Share offline statements with mobile apps and web portals to provide attractive, online documents that allow your customers to analyze their statements through interactive graphs, chart and tables.

Enable business users and content experts to make changes faster

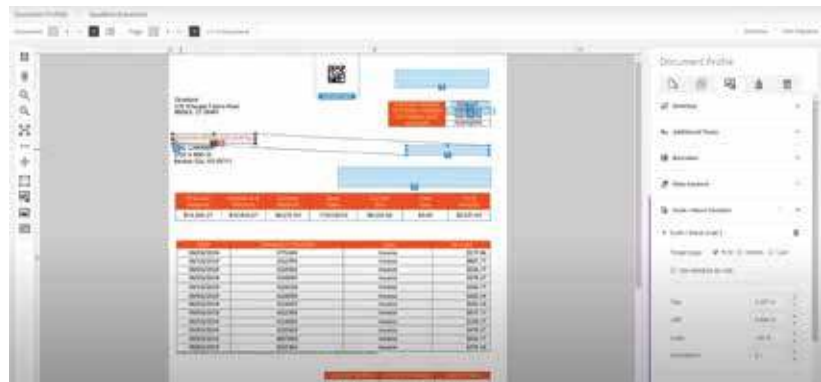

In most organizations, various departments have ownership over different parts of your statements:

- IT manage connectivity to systems, template, and data
- Line-of-business users have ownership over content
- Customer care is responsible for inbound inquiries
- Marketing controls the branding and offers

Quadient Impress Cloud is designed to eliminate the barriers presented by your management and allows your organization to work together in generating more effective customers communications. This solution helps to solve tasks without involving IT specialists or any third party.
